

WINDSHIELD PROTECTION

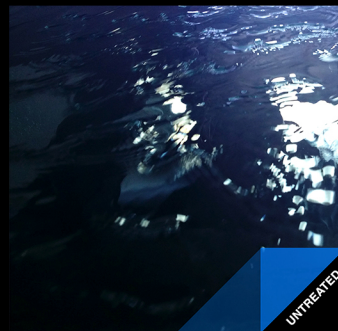

CLEAR ARMOR BENEFITS

- Sealant for your windshield.
- Strengthen your windshield 10x from damage caused by stone, sand, and road debris.
- Clarity - Reduce glare, extend reaction time, safer driving at night and during inclement weather.
- Repellency - Rain, Snow, Slush, Insects
- Self-cleaning

A SAFER DRIVING EXPERIENCE

RAIN

Improving visibility during precipitation events and at night can improve your reaction time and create a safer driving experience for you and your family. When Clear Armor is applied to your windshield, it makes visibility crisper as though you were looking through HD glass.

The Clear Armor process fills in all the peaks and valleys that glass naturally has, increasing repellency by sealing the windshield. This makes rain, insects, snow, and frost easier to remove.

Clear Armor is a product that has outstanding durability, very long service life, very high abrasion resistance and chemical resistance.

The simple two-step product application can greatly improve clarity and visibility to extend driver reaction time. Clear Armor comes with a repellency warranty to make sure your windshield is always protected. Clear Armor offers an upgrade for repair and your windshield in the event of a chip or crack along with additional replacement coverage if your windshield can't be repaired.

Protect yourself now by signing up for Clear Armor windshield protection from Supra Companies an Insured Product Agency.
